

Aloe Berry Nectar

Description and Purpose

Aloe Berry Nectar contains all of the vitamins, minerals, amino acids and enzymes found in our Aloe Vera Gel, with the added benefits of cranberry and apple ingredients.

Pycnogenol, a powerful antioxidant found in cranberries, is particularly useful in maintaining collagen in the skin.

Apple juice, from one of the most popular fruits, is noted for its vitamin A and C content as well as potassium and pectin. It has exceptional sweetness and adds a delightful flavour to Aloe Berry Nectar.

Aloe Berry Nectar can be taken at meal times, or by itself during the day or evening. The cranberry and apple flavouring is totally natural, prepared from a blend of fresh cranberry juice and sweet, mellow apples. We just add fructose (a natural fruit sugar) for exactly the right taste to tempt both adults and children.

At a glance...

- All the benefits of Aloe Vera Gel with the sweeter taste of cranberry and apple
- Can help maintain a healthy digestive system
- Contains potent antioxidants which helps protect the skin
- Contains vitamin C and pectin in apples which aids the cleansing and detoxification of the skin
